Peter Pearson of Ponca City is in the city. Peter recently discovered that he was a healer, and since then he has been curing the sick.
Miss Winona Robinson, who has been visiting in the city, returned to her home at Sedan yesterday. Miss Robinson is a sister of James Robinson, Missouri Pacific operator.

Wellington.

From the Daily Mail.
A telephone message was received here last evening stating that John Jackson and Jack Hastie had been arrested at Wichita, charged with having been violating the fish law. Some joint list at Wichita telephoned that they were under arrest and wanted Bill Hastie to send them five dollars. He at once replied, directing the parties who telephoned him to see Bob Hastie, an uncle of the Hastie boys who now live in Wichita, and have him investigate the case. He reported that there was nothing in the report that Jackson and Hastie were under arrest, but that the fish commissioner had ordered them to appear before him on Saturday. Mr. Lawrence replied by telling the boys not to be scared; that the fish law was not worth the paper upon which it was written. County Attorney Rogers was to have telephoned the fish commissioner this afternoon concerning the matter, but doubting the merits of the case he decided to do so.

The county examining committee will meet tomorrow in Superintendent McLaughlin's office to issue the certificates to those who made the required gratings at the recent county teachers' examination.
Yesterday C. C. Shawver, deputy constable, received word from A. H. Kincaid of this county, who is now at Lawrence, O. T., stating that he had identified the man captured there as Albert Ingram the man accused of stealing Mr. Kincaid's horse on June 30. Ingram had been working for Mr. Kincaid before the theft occurred, when suddenly he disappeared, the horse disappearing with him. A search was at once begun and Ingram has just been captured and returned.

From the Daily Courier.
The counties of Cowley and Sumner composed the nineteenth judicial district of the state. A convention of Republican delegates representing the two counties met at the court house in Wellington Tuesday to nominate a candidate to be voted for at the November election next. Under the call which assembled the convention, Cowley county had fifteen delegates and Sumner county fourteen. The convention was called to order at 11 a. m. and W. T. Madden, the member of the judicial district committee from Cowley county, served as temporary chairman, and Mr. James Lawrence of Sumner was chosen temporary secretary. The usual committee was appointed and reported their action. The committee on candidates found the following persons entitled to seats in the convention: From Sumner county—T. A. Hubbard, C. A. Branscombe, R. T. Simons, George H. Hess, C. D. Burnett, F. G. Emerson, W. H. Staufferbach, A. Branscombe, E. Turner, W. R. Spickard, W. R. Wallace, T. A. Snyder, J. D. Simpson and J. L. Rogers. From Cowley county—E. C. Manning, John Clarkson, S. E. Fink, M. G. Troup, Ross Stratton, W. H. Nelson, W. D. Kramer, P. L. Snyder, J. W. Searle, S. M. Fall, Sam Tull, Charles W. Roberts, D. S. Hayne, S. D. Pollock and Adam Stagers. The report was adopted. The committee on permanent organization reported Oliver S. E. Fink for permanent chairman and C. A. Branscombe permanent secretary. At 12 m. the convention adjourned for dinner and re-assembled at 1:30 p. m. There were twenty-nine votes in the convention and the vote for candidates was taken by ballot. Nominations being in order, J. H. DeWey was placed in nomination by W. H. Staufferbach, C. L. Swartz by Colonel S. E. Fink, M. G. Troup by Adam Stagers. The roll was called twenty-six times, and the result of the first fifteen ballots stood successively: J. S. Day 14, C. L. Swartz 7, M. G. Troup 7, G. H. Buckman 1. Mr. Buckman was not present at the convention nor had he been authorized or requested anyone to present his name to the convention. After the fifteenth ballot Mr. Swartz began slowly to gain until the twenty-sixth, which resulted in his having received fifteen votes and Mr. Day fourteen, all the votes of Cowley county having been cast for Mr. Swartz, and all the Sumner county votes having been persistently cast for Mr. Day. Mr. Swartz's nomination was made unanimous. The judicial committee was selected as follows: Cowley county—Charles W. Roberts, P. L. Snyder and S. C. Day. Sumner county—W. R. Wallace, W. H. Staufferbach and C. A. Branscombe.

BOSTON, 7, NEW YORK, 5.
Boston, Aug. 11.—New York batted Lewis freely for three innings today, scoring four runs in that time. Then Lewis steadied down to his execution. In the last half of the eighth inning, on a bunt hit by Bergen and Hamilton, aided by errors by Clark, and bases on balls, Boston rolled up five runs and won out. Two nasterful balls by Wilson were very costly. Score:

generally been expected to follow the issuance of the August crop report. This further tended to discourage the bull faction. The Liverpool market continued to ease off, with effectually checked investment buying. Closing quotations: Spot, easier, unchanged; middling upland 6; middling gulf 8 1/4. Futures closed steady; sales \$6,000 bales; January \$7.03; February \$7.07; March \$7.10; April \$7.16; May \$7.18; August \$7.34; September \$7.18; October \$7.04; November \$6.95; December \$6.99.

The New York Evening Post of August 9 says: The trading in cotton continued small in volume today, but the market was firmer, and the tendency of prices was towards a gradually higher range. There were no new developments in the situation or in the conditions immediately surrounding the market from those previously outlined in these reports. The strength of the statistical position of the staple and the continued critical position of the crop in Texas together with the revival of business all over the country, and the confidently bullish sentiment generally prevailing in Wall Street, were found difficult to effect purchases to any extent without bidding up prices.

The official weather shows good rain in various parts of North Carolina, Alabama, Mississippi and Arkansas, but no rain of consequence in Texas since Saturday night. The total rainfall in Texas for the past forty-eight hours included .04 inch at Galveston, .04 at Austin, .02 at El Paso, .02 at Long View, .02 at Lubbock, .06 at Paris, and a trace at Columbia. The market maintained its early firm undertone throughout the afternoon session under continued light offerings and firm southern spot markets and bad crop reports from Texas. These latter reports came from the best posted people at Galveston, Houston, Dallas and Waco, and confirmed previous statements made in the market reports that the crop in the south western portion of Texas has been badly damaged.

THE WEATHER.

Wichita, Kan., Aug. 11, 1897.
Local forecasts for Wichita and vicinity: Until Friday fair and warm. During the past 24 hours the highest temperature has been 85, the lowest 61, and the mean 74, with cool, clear weather, light north to northeast wind, and nearly stationary pressure. Rain fell .12 inch in the gauge, showing no effect of the recent rains. Thus far this month the average temperature has been 73. For the past nine years the average temperature for the month of August has been 77, and for the last thirty years 76. FRED L. JOHNSON, Observer.

WASHINGTON, Aug. 11.—Forecast for Thursday: Kansas—Generally fair; warmer; north-east to east winds. Oklahoma and Indian Territory—Generally fair; north winds.

STOCKS AND BONDS

UPWARD COURSE OF SHARE VALUES ALMOST UNINTERRUPTED.

There is an Occasional Halt to Take Profits But the Offerings Are in All Cases Readily Absorbed and the March is Resumed—London, From Buyer, Turns Seller, Which Has No Appreciable Effect on This Side—Low-Price Shares of Non-Dividend Payers in Demand—Grangers Booming.

New York, Aug. 11.—The only interruption to the upward course of prices of stocks today was due to the occasional profit-taking by room traders. The offerings on this account were easily absorbed, with only a momentary halt, after which the rise was resumed. During the morning the influence of buying for London account was evident, arbitrage brokers taking all the international shares quite freely. London prices also came higher at the opening, but before the day was over London turned seller again, and it is estimated, sold 25,000 more shares than were bought. The effect of the selling had no appreciable effect on prices. The low-priced shares of non-dividend paying stocks were largely bought by London and were favorites also in the local speculation, the argument being that such stocks are bound to advance if the promise of better times holds good, and if it does not they cannot recover. Union Pacific was the favorite in this class and was the leader of the whole market in point of activity, 51,000 shares being bought during the day. The stock was helped by the revival of an old story that the forthcoming foreclosure sale would make the road a part of a great transcontinental system under one control. The stock was heavily bought by professional traders in speculative accounts and closed with a gain of 3 1/4 points on the day.

The excitement in the wheat market was reflected in the stock market and was a large element in encouraging prices, especially of the granger stock, the grain-carrying roads in the northwest, west and southwest all showing substantial gains and great activity. The decline in the highest priced stocks were of enormous proportions and the Atchafalpa securities and Northern Pacific preferred were also prominent features. Reports from western points were of increasing demand for car space to move the grain crop and of the necessity of great exertions on the exertions on the part of railroad managers to avert a famine.

Statement of earnings also continues encouraging. St. Paul showed an increase for the first week in August of \$50,225 over last year. For the same period Canadian Pacific gained \$64,000, Missouri Pacific \$54,000 and Kansas and Texas \$12,000. Northern Pacific gained \$13,947, for the last week in July. Louisville and Nashville was active all day, but moved selling narrow time, until near the close, when it jumped to a leading place in the advance with a net gain of 2 1/8 per cent.

One of the features of the day was the steadying of the sterling exchange market, and the consequent cessation of talk of gold shipments in the immediate future. The stiffening of the discount rate in London, added to the continued heavy sales here of London holdings of securities, is probably responsible for the check to the fall in exchange. Continental exchange continued weak and downward. Gains extended over a point in a large number of railroad stocks, and to 10 points in Cleveland, Cincinnati, Chicago and St. Louis preferred, 2 1/4 in Metropolitan Traction, 2 3/8 per cent in Minneapolis and St. Louis first preferred, 2 1/2 per cent in Pittsburgh, Cleveland, Chicago and St. Louis, and 2 per cent in rubber preferred. Losses of over a point were shown in Laclede Gas preferred (6 3/4), 5 per cent in Chicago and Alton and Consolidated Gas, Lake Shore and Long Island.

The total sales of stocks today were \$2,420,000, including: Atchafalpa, 7,000; Chesapeake and Ohio, 7,335; Cleveland, 11,000; Chicago and St. Louis, 4,000; Erie (new), 7,461; Illinois Central, 7,000; Louisville and Nashville, 25,755; Manhattan, 4,400; Northern Pacific, 6,000; Minneapolis and St. Louis, 4,335; Missouri Pacific, 4,270; Missouri, 4,315; Texas preferred, 5,000; New Jersey Central, 4,000; Northern Pacific, 16,350; preferred, 40,220; Northwestern, 4,345; Ontario and Western, 8,180; Reading, 26,885; Rock Island, 12,650; St. Paul, 46,775; St. Paul and Omaha, 3,385; Southern Railway preferred, 6,217; preferred, 14,610; Union Pacific, 32,400; American Tobacco, 16,320; Chicago Gas, 4,600; Lead, 5,000; Sugar, 19,565; Tennessee Coal and Iron, 4,882; Western Union, 21,180; Chicago Great Western, 3,200.

The inquiry for railroad mortgages continues heavy and reflects the increased confidence in the general situation. Issues of reorganized properties forged to the front and purchases of the middle-grade lines were on a large scale. The general market maintained a very strong tone throughout. The aggregate sales were \$2,420,000.

FOREIGN STOCK MARKETS.
New York, Aug. 11.—The Evening Post's London financial cablegram says: "The stock markets were irregular today, being entirely shaped by New York. Thus, entirely, English calls and all kindred stocks were flat on dear money, based on fears of a fall in New York, while Americans and Kafirs were booming."

"I learn that yesterday's and today's withdrawals of gold from the Bank of England were exceptional transactions, due to gold having been sold forward in open market for a given date against which arrivals have not been sufficient. No arrangements have yet been made for shipments to New York."

"Americans were good all day. The public here is buying. The interest is spreading and the dealings are becoming very heavy."

"There was a run on all the preference stocks of reorganized lines. Louisville and Nashville was also very strong. Prices closed a shade under the best, but with a confident tone."

"It is significant that some of the most confident buyers of Americans come from the members of the Bullie league, who see the grain movements, and from financiers in the money market who see the American bills offered for discount. These are said in some quarters to be almost unprecedentedly large."

"The rate in discount rates here today is 1 1/2 to 1 3/8 1/2 per cent shows that what extent business in that branch of the market is disorganized."

"Best opinion favors no change in tomorrow's Bank of England rate. Still, such is the fear of exports of gold to New York that a change in the rate is not unlikely."

NEW YORK.
New York, Aug. 11.—On top of yesterday's 2 cent advance came another jump in wheat prices today. The bulls had entered the control of the market from start to finish. Several times the bears attempted to raid the market but they found no scare on long stuff, but they found prices like a rock, and each time were obliged to cover at a considerable loss. Buyers were plentiful all day, encouraged by the sensational advance of 20 1/2 cents in the Liverpool prices and 1 1/2 cents in Paris, figures that created in the minds of the bull traders visions of further export demand on a continued heavy scale. September wheat started at 87c, which was 1 3/8 higher than it closed last night. From there it moved upward steadily until early in the afternoon 88 1/2 was reached, eclipsing all previous records for the season. The bulls said it would go to a dollar a bushel in New York before the present bull movement subsided and foreigners were

The total sales of stocks today were \$2,420,000, including: Atchafalpa, 7,000; Chesapeake and Ohio, 7,335; Cleveland, 11,000; Chicago and St. Louis, 4,000; Erie (new), 7,461; Illinois Central, 7,000; Louisville and Nashville, 25,755; Manhattan, 4,400; Northern Pacific, 6,000; Minneapolis and St. Louis, 4,335; Missouri Pacific, 4,270; Missouri, 4,315; Texas preferred, 5,000; New Jersey Central, 4,000; Northern Pacific, 16,350; preferred, 40,220; Northwestern, 4,345; Ontario and Western, 8,180; Reading, 26,885; Rock Island, 12,650; St. Paul, 46,775; St. Paul and Omaha, 3,385; Southern Railway preferred, 6,217; preferred, 14,610; Union Pacific, 32,400; American Tobacco, 16,320; Chicago Gas, 4,600; Lead, 5,000; Sugar, 19,565; Tennessee Coal and Iron, 4,882; Western Union, 21,180; Chicago Great Western, 3,200.

The inquiry for railroad mortgages continues heavy and reflects the increased confidence in the general situation. Issues of reorganized properties forged to the front and purchases of the middle-grade lines were on a large scale. The general market maintained a very strong tone throughout. The aggregate sales were \$2,420,000.

FOREIGN STOCK MARKETS.
New York, Aug. 11.—The Evening Post's London financial cablegram says: "The stock markets were irregular today, being entirely shaped by New York. Thus, entirely, English calls and all kindred stocks were flat on dear money, based on fears of a fall in New York, while Americans and Kafirs were booming."

"I learn that yesterday's and today's withdrawals of gold from the Bank of England were exceptional transactions, due to gold having been sold forward in open market for a given date against which arrivals have not been sufficient. No arrangements have yet been made for shipments to New York."

"Americans were good all day. The public here is buying. The interest is spreading and the dealings are becoming very heavy."

"There was a run on all the preference stocks of reorganized lines. Louisville and Nashville was also very strong. Prices closed a shade under the best, but with a confident tone."

"It is significant that some of the most confident buyers of Americans come from the members of the Bullie league, who see the grain movements, and from financiers in the money market who see the American bills offered for discount. These are said in some quarters to be almost unprecedentedly large."

"The rate in discount rates here today is 1 1/2 to 1 3/8 1/2 per cent shows that what extent business in that branch of the market is disorganized."

"Best opinion favors no change in tomorrow's Bank of England rate. Still, such is the fear of exports of gold to New York that a change in the rate is not unlikely."

NEW YORK.
New York, Aug. 11.—On top of yesterday's 2 cent advance came another jump in wheat prices today. The bulls had entered the control of the market from start to finish. Several times the bears attempted to raid the market but they found no scare on long stuff, but they found prices like a rock, and each time were obliged to cover at a considerable loss. Buyers were plentiful all day, encouraged by the sensational advance of 20 1/2 cents in the Liverpool prices and 1 1/2 cents in Paris, figures that created in the minds of the bull traders visions of further export demand on a continued heavy scale. September wheat started at 87c, which was 1 3/8 higher than it closed last night. From there it moved upward steadily until early in the afternoon 88 1/2 was reached, eclipsing all previous records for the season. The bulls said it would go to a dollar a bushel in New York before the present bull movement subsided and foreigners were

STOCKS AND BONDS

UPWARD COURSE OF SHARE VALUES ALMOST UNINTERRUPTED.

There is an Occasional Halt to Take Profits But the Offerings Are in All Cases Readily Absorbed and the March is Resumed—London, From Buyer, Turns Seller, Which Has No Appreciable Effect on This Side—Low-Price Shares of Non-Dividend Payers in Demand—Grangers Booming.

New York, Aug. 11.—The only interruption to the upward course of prices of stocks today was due to the occasional profit-taking by room traders. The offerings on this account were easily absorbed, with only a momentary halt, after which the rise was resumed. During the morning the influence of buying for London account was evident, arbitrage brokers taking all the international shares quite freely. London prices also came higher at the opening, but before the day was over London turned seller again, and it is estimated, sold 25,000 more shares than were bought. The effect of the selling had no appreciable effect on prices. The low-priced shares of non-dividend paying stocks were largely bought by London and were favorites also in the local speculation, the argument being that such stocks are bound to advance if the promise of better times holds good, and if it does not they cannot recover. Union Pacific was the favorite in this class and was the leader of the whole market
